

Hardware Software list

In order to work with the different samples for Python 3.6 and Python 3.7, you will need any computer with an Intel Core i3 or higher CPU and at least 4 GB RAM. You can work with any of the following operating systems:

- Windows 7 or greater (Windows 8, Windows 8.1, Windows 10)
- Windows Server 2012 or greater (Windows Server 2016, Windows Server 2019)
- macOS Mountain Lion or greater
- Any Linux version capable of running Python 3.6.6 and any modern browser with JavaScript support

You will need Python 3.6.6 or greater installed on your computer.
